9. We may disclose your protected health information concerning substance abuse services in order to comply with state laws requiring us to report incidents of child abuse. Any disclosure for these purposes must also meet the requirements stated above for all protected health information.
10. We may disclose your protected health information concerning substance abuse services in connection with the report or investigation of your commission of a crime on our premises or against our personnel or your threat to commit such a crime. VIII. YOUR RIGHTS REGARDING YOUR PROTECTED HEALTH INFORMATION:

A. Right to Inspect and Copy

You have the right to request an opportunity to inspect or copy health information used to make decisions about your care – whether they are decisions about your treatment or payment of your care. Usually, this would include clinical and billing records.

You must submit your request in writing to the Medical Record Technician at your treatment site. If you request a copy of the information, we may charge a fee for the cost of copying.

Your request to inspect or copy your protected health information may be denied if the treating physician determines that disclosure is detrimental to your physical or mental health. A notation to that effect will be made part of your medical records. If this occurs, then you may file a complaint as outlined in Section IX.

B. Right to Amend

For as long as we keep records about you, you have the right to request to amend any health information used to make decisions about your care – whether the decisions about your treatment or payment of your care. Any amendment to the record must be made on a blank progress note form (which will be provided at request), include the reason why you believe the information in the record is incorrect or inaccurate and you must sign and date the information. The amendment will be inserted into your medical record in the section that you amended if not denied. If it is denied you will be given a written notice within 60 days along with instructions about filing a complaint.

C. Right to an Accounting of Disclosures

You have the right to request that we provide you with an accounting of disclosures we have made of your protected health information. An accounting is a list of disclosures. This list will not include certain disclosures of your protected health information. By way of example, those we have made for purposes of treatment, payment, and health care operations as well as those you have authorized.

To request an accounting of disclosures, you must submit your request in writing to the Medical Records Department at your treatment site. The request should state the time period for which you wish to receive an accounting. This time period cannot be longer than six years and cannot include dates before April 14, 2003.

The first accounting you request within a twelve-month period will be free. For additional requests during the same 12-month period, we will charge you for the cost of providing the accounting. We will notify you of the amount we will charge and you may choose to withdraw or modify your request before we incur any costs.
